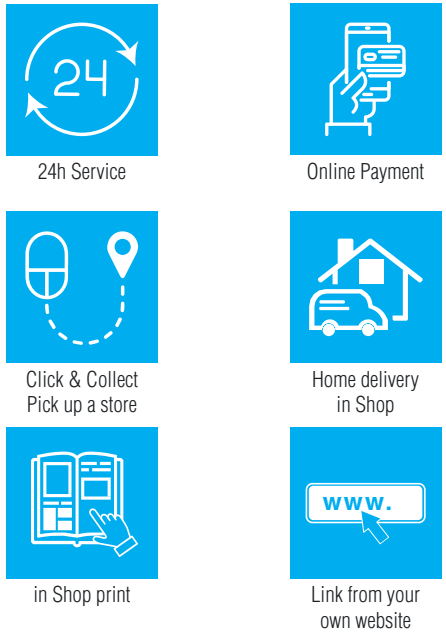
# A **PhotoPrintMe** dedicated device

**PhotoPrintMe Station PPM200C** is a dedicated device for PhotoPrintMe use in the store, in a desktop format based. Incorporates a new software PhotoPrintMe Station that combines local functions with PhotoPrintMe catalogue functions, to provide a fully operational PhotoPrintMe service in the store.



## What is **PhotoPrintMe**?

PhotoPrintMe is a photo printing solution that gives to customers access to a wide variety of products and formats through a mobile device. An access to an online catalogue to create photographic products starts it all. Where can they access it from? From your own shop or anywhere else (home, office, etc...).

Only Internet connection is required, so simple like that!

Including advanced features like online payment or home delivery is a perfect solution for 24h photo printing service available in your store or business. And easy to integrate in your website.

PhotoPrintMe is a cost-effective photography service you can offer in your store.

## Main features

> PhotoPrintMe dedicated device
> Small size (only 0,02m²), for a flexible layout in the store
> Remote settings and configuration
> Easy to use by the end user and shop operator
> Collect and/or Order configurable

# Why **PhotoPrintMe** station?

**PhotoPrintMe Station PPM200C** is specifically designed for a full PhotoPrintMe performance in the store, to cover the several configurations that shop operator may need: order processing, or just order collection, or both of them. Includes the PhotoPrintMe Station software, with local and remote functions to deliver key features, for both shop operator and end user, for a great photo printing service in the store.

## For **shop operators**

PhotoPrintMe Station PPM215M allows you to easily configure the kind of service (order, collect or both) you want to set up in the store.

Allows you to operate with your already existing **Citizen CX-02, CX-02W and CY-02**, to provide photo printing management advanced features in the store, such as:

- High throughput/multiformat (more than one printer)
- Local Error Checking management
- Remote capabilities: Support, Management, Settings and Updates.
- Multiple printer models compatibility for PhotoPrintMe products printing:

Citizen CX-02

Citizen CX-02W

Citizen CY-02

## For **customers in the store**

Order creation with PhotoPrintMe store service. Collection of the already processed order

**Learn more about order or collection use flows:**

## Small Size

Designed to meet Retail operating environments, with a reduced footprint size (only 0.09 m²). Depending on the needs in the store, allows to be configured for a flexible use like an:

**PhotoPrintMe Station**
To allow end users to Create and Collect PhotoPrintMe Orders.

**PhotoPrintMe Collect Station**
To allow end users to Collect their already placed Photo-PrintMe Orders.

**PhotoPrintMe Order Station**
To allow end users to send regular print orders to their Citizen **CX-02, CX-02W and CY-02** via the PhotoPrintMe Service.

## Features

**Remote settings and configuration**
Advanced remote settings and updates for a comfortable and updated operation in the store. Remote support and local error checkings make easy to bring an optimal photo printing service.

**Easy to use by end user and shop operator**
Thanks to the PhotoPrintMe Station software, the end user can quickly place PhotoPrintMe Orders in a intuitive user interface.
The shop operator can easily manage the PhotoPrintMe service and settings in a very quick and intuitive manner, in special for those store chains who may need to manage several PhotoPrintMe stores.

# **Increase your profitability** with the Shop option.

PhotoPrintme!

## The shop option includes:

**Own product catalogue**

This option allows the creation of exclusive personalised products for your catalogue.

**Delivery management**

Allows you to include additional charges for the preparation/processing of home deliveries.

**Shared folder for external printing**

Allows you to set up a manufacturing output channel for customised products.
